

Precursor.ca Now Daylite Certified

Contact: Alex Narvey

Precursor Systems is pleased to announce Alex Narvey is now a Certified Daylite Consultant and Precursor.ca, Inc is an authorized Daylite Reseller.

Marketcircle's Daylite 3 is a Mac-only project management application that integrates Apple's Mail, iCal and Address Book into a shared database so that the people working on a project can share and track information and resources. It can be integrated into workflows with FileMaker, MoneyWorks, Lightspeed, and MYOB.

The latest version of Daylite is now organized on principles outline in David Allen's seminal book *Getting Things Done*. And Marketcircle will be bringing out a much anticipated companion app for the iPhone in first quarter 2009 to let you use Daylite to get your work done from wherever you are.

Daylite can be instrumental in customer support, scheduling meetings and resources, task delegation and follow-up, rule-based calendaring, and tracking new business.

Certified Daylite Consultants can offer implementation, data conversion, support and training services for Daylite.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
