

Press Release

January 30, 2009

Precursor.ca a Member of FileMaker Business Alliance

Contact: Alex Narvey

Precursor Systems is pleased to announce that Precursor.ca, Inc. is now a member of both the FileMaker Business Alliance and the FileMaker Technet.

Being a member of FileMaker's reseller and developer programs gives us increased access to FileMaker sales and technical resources and allows us to provide better solutions with FileMaker's redesigned product line featuring FileMaker Pro 10.

For years, Precursor Systems has run its business using FileMaker (starting with version 5) and we have created custom solutions for our customers using FileMaker Advanced and deploying with combinations of FileMaker Pro and FileMaker Server and FileMaker Server Advanced.

In summer 2008 Precursor founder Alex Narvey attended FileMaker DevCon 2008 in Phoenix, Arizona and in Autumn 2008 we began integrating our own corporate FileMaker solutions into the iPhone. This transformation was completed with our recent upgrade to of FileMaker Server 10 Advanced on our inhouse servers.

"Our own business is highly reliant on the new FileMaker Server 10 Advanced and its web and iPhone integration," said Precursor founder Alex Narvey, "And we are more enthused than ever about helping our customers with FileMaker based solutions to manage their information."

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
