

Precursor Becomes Google Apps Authorized Reseller

Contact: Alex Narvey

Precursor Systems is pleased to announce that it has become an authorized reseller of the Google Apps™ suite of communication and collaboration tools..

Google Apps brings simple, powerful communication and collaboration tools to organizations of any size – all hosted by Google to streamline setup, minimize maintenance, and reduce IT costs. With Gmail (including Google email security, powered by Postini), Google Calendar, and integrated IM, users can stay connected and work together with ease. And, using Google Docs and Google Sites, which include word processing, spreadsheet, presentation and website creation tools, they can share files and collaborate in real-time, keeping versions organized and available wherever and whenever users work.

The Google Apps Reseller program includes resellers, consultants and independent software vendors that sell, service and customize Google Apps for Business for their customers. Precursor received training, support and deployment services from Google, as well as access to APIs for integrating Google Apps into their customers' business operations. Precursor is able to retain a close relationship with their customers in order to provide additional service and support. The businesses receiving Google Apps will benefit from the additional attention to their specific needs.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
