

Precursor's Narvey Attends ACES Conference

Contact: Alex Narvey

Precursor Systems is pleased to announce that company founder Alex Narvey will be attending the ACES Conference May 20-21 in New Orleans Louisiana.

The ACES Conference was conceived by two members of the Apple Consultants Network (Justin Esgar and Luis Giraldo) as a conference "for consultants, by consultants." This year's inaugural event will focus on making an Apple consulting business better.

"Consultants are looking to up their game," said Precursor founder Alex Narvey, "That's why the recent Apple Advanced Camp had a business track. But this is the first conference I will have attended that is completely business rather than tech oriented and I am really looking forward to it."

Topics will include trends in the industry, risk assessment, client management, managed services, legal issues, branding, web presence, and more.

Precursor Systems was founded in March 1994 by Alex Narvey to provide support for computer-based professionals in the Publishing, Printing, Prepress, Digital Imaging, Audio and Video industries.
